Education

- 2013 **PhD, National Taiwan University**
Computer Science and Information Engineering
Dissertation: "Information preservation and its application to natural language processing"
- 2003 **MS, National Taiwan University**
Computer Science and Information Engineering
- 2001 **BS, National Taiwan University**
Computer Science and Information Engineering

Experience

- 2015–present **Research Fellow, RMIT University**
With Mark Sanderson, Falk Scholer (School of CS&IT), and W. Bruce Croft (UMass Amherst) on question answering and summarization; with J. Shane Culpepper (School of CS&IT) and Roi Blanco (formerly Yahoo! Research) on search efficiency
- 2013–2014 **Postdoctoral Fellow, National Taiwan University / Academia Sinica**
Contract position on various data analytics projects
- 2010–2012 **Research Assistant, National Taiwan University**
With Jieh Hsiang (CS&IE) on natural language processing
- 2009–2010 **Visiting Scholar, University of Southern California**
With Andrew S. Gordon (Institute for Creative Technologies) on topic modeling over narrative texts
- 2004–2008 **Research Assistant, Academia Sinica**
With Lee-Feng Chien (Institute of Information Science) on information retrieval and web mining

Research Profile

I am generally interested in research on Natural Language Processing and Information Retrieval, with a strong focus on probabilistic modeling, ranking, and theories. My typical daily work involves carefully crafting systems with the best known technologies, seeking further improvements with new ideas implemented as experiments/algorithms, and grinding away on research clusters. I have published 11 peer reviewed conference papers, 5 of them in prestigious venues such as ACM SIGIR Conference on Research and Development in Information Retrieval (SIGIR), Annual Meeting of the Association for Computational Linguistics (ACL), and ACM International Conference on Information and Knowledge Management (CIKM). I have an h-index of 6, with 207 citations to his research work according to Google Scholar, as of February 2017. One of my earlier work was awarded Best Paper in ROCLING 2009.

AREA OF INTEREST

Summarization, Question Answering, Retrieval Models, Ranking, Representation, Probabilistic Modeling (Information Theory), Search Efficiency, and NLP Applications

SERVICES

PC Member:

- ACM SIGIR Conference on Research and Development in Information Retrieval (SIGIR) 2016/2017
- ACM International Conference on Web Search and Data Mining (WSDM) 2017
- ACM International Conference on Information and Knowledge Management (CIKM) 2017
- European Conference on IR Research (ECIR) 2017
- Large-Scale Distributed System for Information Retrieval 2014/2015 (WSDM/CIKM workshop)
- Supporting Complex Search Tasks 2017 (CHIIR '17 workshop)

Reviewer:

- IEEE Transactions on Knowledge and Data Engineering (TKDE)

Teaching

- 2013 **Guest Lecturer, National Taiwan University**
Formal Language and Automata Theory, Fall 2013 (3 lectures)
- 2007 **Teaching Assistant, National Taiwan University**
2008 Formal Language and Automata Theory, Fall 2011
2011 Web Retrieval and Mining, Fall 2007/2008

Honors and Awards

- 2016 **Hugo Research Grant, Abbrevi8**
With Mark Sanderson, Falk Scholer, Damiano Spina, Zhifeng Bao, and W. Bruce Croft. "A learning to rank framework for entity centrality". A\$13,489.
- 2013 **SIGIR Travel Grant, ACM SIGIR**
Part of the grant comes from Donal B. Crouch grant from the Singhal Family Foundation
- 2009 **Best Paper Award, ROCLING '09**
With Chia-Jung Lee, Yi-Chun Lin, Pei-Sen Liu, and Pu-Jen Cheng. "Query formulation by selecting good terms". In *Proceedings of the 21st Conference on Computational Linguistics and Speech Processing (ROCLING '09)*
- 2008 **Graduate Students Study Abroad Program, NSC Taiwan**
Travel grants for 1-year overseas visiting to University of Southern California
- 2008 **Distinguished Teaching Assistant Award, National Taiwan University**
Web Retrieval and Mining, Fall 2007. Granted by Department of CS&IE

Publications

REFEREED CONFERENCE/WORKSHOP PAPERS

- Chen, R.-C., Yulianti, E., & Sanderson, M. (2017). On the benefit of incorporating external features in a neural architecture for answer sentence selection. In *Proceedings of the 40th International ACM SIGIR Conference on Research and Development in Information Retrieval*. SIGIR '17. to appear.
- Chen, R.-C., Gallagher, L., Blanco, R., & Culpepper, J. S. (2017). Efficient cost-aware cascade ranking for multi-stage retrieval. In *Proceedings of the 40th International ACM SIGIR Conference on Research and Development in Information Retrieval*. SIGIR '17. to appear.
- Yulianti, E., Chen, R.-C., Scholer, F., & Sanderson, M. (2016). Using semantic and context features for answer summary extraction. In *Proceedings of the 21st Australasian Document Computing Symposium* (pp. 81–84). ADCS '16. ACM.

Skills

COMPUTER / PROGRAMMING

Linux/Unix: 13+ years
C/C++, Java, Perl: 13+ years
R: 7+ years
Python: 3 years
Golang: 1 year

TECHNICAL SOFTWARE

CoreNLP and NLTK (NLP)
Indri, Terrier, Galagosearch, and Lucene (Search Systems)
Scikit-Learn, xgboost, RankLib, Theano/Lasagne (Machine Learning)
Familiarities with tools in specific areas such as question answering and summarization
Been painstakingly hacking Indri for 6+ years (index optimization/retrieval experiments)
Recently worked a lot on xgboost and Theano (ranking experiments)

LANGUAGE

Taiwanese: native
Mandarin Chinese: native
English

Hobbies

Puzzles: Sometimes just hang out on Project Euler
Bass guitar: Played with full enthusiasm from 2000 onwards, has been on and off in recent years
